WORK EXPERIENCES

Frontend Engineer - TaniFund

Sep 2021 - Feb 2022, Internship

Take part in developing tanifund.com and tanifund's internal dashboard mainly using NuxtJS that uses Vuex for state management, Sass to style the components and pages, and Jest & Vue test utils to create unit tests.

Frontend Engineer - Mandiri Tunas Finance

Jul 2021 - Dec 2021, Internship

Continue to develop the project that my team created in IT BCC 2021 - MTF that is mainly using NextJS. Other than that, we develop a web to manipulate datas for excel files.

Frontend Engineer - Aksaramaya

Apr 2020 - May 2020, Internship

Work on MCCP web frontend that uses Reactjs as the framework and antdesign as the UI Library. Mostly focusing on consuming the API from the backend and implementing the CRUD function on the frontend.

Mobile Application Developer - Hash Rekayasa Teknologi

Feb 2020 - Jul 2020, Part-time

Made an android based app with an OCR using React Native, and consumes a GraphQL API, while using atomic design as a method to manage the components.

Advanced Programming Lab Assistant - FILKOM UB's Learning Lab

Feb 2020 - May 2020, Part-time

Teaches freshmen year computer science students about Java's Object Oriented Programming (Constructor, Encapsulation, Inheritance, Polymorphism, Interface).

ORGANIZATION EXPERIENCES

Basic Computing Community, FILKOM UB

- **Chairman Jan 2021 - Des 2021**

Responsible for taking care of the community and making sure that BCC is on the right path.

- **Deputy Head of Frontend Department Dec 2019 - Jan 2021**

Responsible for accommodating workshops for the frontend department and also contributing to BCC's open sources.

- **Member of Frontend Department Apr 2019 - Dec 2019**

Take part as a learner in workshops about frontend development.

Eksekutif Mahasiswa Teknologi Informasi, FILKOM UB

- **Staff of Research and Development Feb 2020 - Dec 2020**

Responsible for accommodating, developing, and appreciating the potential of information technology students in the scientific field and talent & interests.

ACHIEVEMENTS

2nd Place, FIND IT 2021 (Hackathon) - KMTETI UGM

Made an MVP of an e-commerce app in about two weeks, and I was responsible for the frontend of the app that was created using React Native and Redux for the state management system.

3rd Place, IT Business Case Competition 2021 - Mandiri Tunas Finance

Create a web app to monitor the sales performance, and I was responsible for the frontend of the app that was created using NextJS and styled-components for the styling.

EDUCATION

Brawijaya University (2018-2022)

Information Technology, Faculty of Computer Science
